## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Group VI in the reply filed on 21 January 2005 is acknowledged. The traversal is on the ground(s) that a search and examination of the entire application would not place a serious burden on the examiner. This is not found persuasive because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper. Because these inventions are distinct for the reasons given above and the search required for Group VI is not required for Group I-V, VII-XIV, restriction for examination purposes as indicated is proper.

The requirement is still deemed proper and is therefore made FINAL.

2. This application is in condition for allowance except for the presence of claims 1-23, 26-33, 40-67 to an invention non-elected with traverse in the reply filed on 21 January 2005.

Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

### ***Allowable Subject Matter***

3. Claims 24, 25, 34-39 are allowed.

Art Unit: 2132

4. The following is an examiner's statement of reasons for allowance: The prior art does not disclose determining a representation for the encryption of plural variables and mapping components of multivariate mappings, replacing each variable to be decrypted with a decrypted equivalent variable, composing the equivalent variable with a mapping, and composing each mapping component to be encrypted with an encryption function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
